PADLOCKS

They Stand Severe Tests

THIEVES have tried to get into cars and warehouses equipped with SARGENT Cylinder Padlocks, they have battered and jimmied the Padlocks but the heavy tough cases, the steel, bronze or carbo-tempered shackles and the well-made, strong interior mechanism have stood the tests.

For those who do not need the strength of the SARGENT CYLINDER or SUB-CYLINDER line we have a variety from which to select. They vary in size, finish and price, as are illustrated and described throughout this book.
